

PRZ

PIPES AND TUBES MARKING

- Halogen free round shaped dirt repelling marking profile for pipes and tubes.
- Especially suitable for the food processing industry with increased hygienic and dirt repelling function.
- Fast and simple mounting in one single step.
- Standard sizes for extra tight fit but still adjustable mounting.

General information

Design

PRZ is a round self-supporting marking profile for special applications within the process industry. It is manufactured with an accurate diameter fit to standard pneumatic tubes and stainless pipes.

Mounting onto the tubes and pipes is fast and simple with one single grip. But it is still adjustable and removeable for service and modification work on the equipment.

PRZ closes tightly to eg minimize bacterial accumulations in applications in close contact with eg foods.

Technical information

Temperatur range

-30°C to +90°C (-22°F to +194°F)

Storage temperatur

+15°C to +25°C (+59°F to +77°F) < 95% Rh

Product performance

- Halogen free according IEC 61249-2-21
- Silicon free
- Flammability resistance according to UL94-VO
- Complies with CEN/TS 45545-2 and NF X 70-100-1/-2.
Report LAPI 502.11S0050-12
- Complies with NF F 00-608.
-5.5.1
-5.5.4
-6.1
Report LCIE 107511-613634

Material

Halogen free Zerex. Contains Melamine (Cas no. 108-78-1) in the PRZ mark sleeve (20-50%).

Colour

Standard yellow.

For other colours contact Partex.
